Experience

Base / Sr. UX Designer

2022 - present

Lead product designer at Base - SaaS B2B platform.

- Creating and applying design strategies.
- Leading the planning and structuring of deliverables.
- Working closely with product managers, engineers, and fellow designers.
- Creating wireframes, prototypes, and ready-to-go products.
- Defining product direction and focus, while working collaboratively with product managers and stakeholders to prioritize and achieve better KPIs.
- Creating a new design system, solving UX issues, and designing new features.
- Establishing consistent design language and ensuring brand integrity.
- Mentoring and coaching junior designers.

Self-employed / UX Designer

2019 - 2022

- Providing design services to tech companies for web & mobile.
- Translating complex concepts and data into working products.
- Producing detailed wireframes, interaction maps, flowcharts, and spec documents to effectively communicate design and product requirements.
- Redesigning and architecting new environments for existing platforms.
- Providing design solutions and rationale, aligned with client objectives.

Storyball / Game Designer / Product Manager

2018 - 2019

- Writing and developing the game's design mechanics.
- Coordinating and communicating with cross-team designers.
- Main achievement: establishing new work methods and processes, including the adoption of new software to improve efficiency.
- Collaborating with the development team to ensure a successful launch.

Self-employed / UX Designer

2016 - 2018

- Providing website design, marketing design, game production, and user experience design.
- Conducting user research to provide design solutions aligned with customer needs and vision.

Sigo / Co-founder / UX Designer

2013 - 2016

- Working closely with CEO, and CTO to develop the product vision, strategy and app.
- Implementing the company's long and short-term goals.
- Developing a digital style guide and responsive design pattern library to ensure UI/UX and brand consistency across multiple platforms.
- Conducting usability test facilitation/execution.
